RETIREMENT LIVING – for lifestyle

At *mecwacare* John Atchison Centre we offer a leisure and lifestyle program that enhances the quality of life for each resident. We believe activity and social engagement promotes health and wellbeing and we encourage each person to have fun and enjoy each day. There is an activity room for various lifestyle programs, with a tea and coffee area for residents' families.

for new experiences

The activities calendar is planned a month in advance and provides many interesting and varied group activities such as cooking and sewing groups. Outings are conducted weekly on the facility bus to a variety of clubs and places of interest. Residents enjoy singing, dancing and music each week, while there is an outdoor garden area to maintain.

mecwacare's aged care residential facility neighbours the retirement living units, offering a pathway of care. This provides the opportunity for tenants to have priority access to 24-7 care and supported living should your needs change, ensuring minimum impact to daily life and peace of mind remaining in familiar surrounds.

for time with family
