

Caring is at  
the heart of  
everything  
we do

## Home and Community Care Program for Younger People (HACC PYP)

mecwacare supports people of all ages and abilities. We offer post-acute, short-term or long-term care to support our clients to remain in their own homes. Each service is integrated so care can be tailored to meet client needs and changes in circumstances.

Clients are our partners in the ongoing assessment and planning process to ensure they receive the care and support they need to achieve their goals for independent living.

mecwacare works with clients to assess and plan their care goals. An individual care plan will be developed using a Wellness and Reablement Approach in consultation with the client and their nominated representatives.

Our HACC PYP services are delivered from six sites across metropolitan Melbourne and regional Victoria to people under 65 (Aboriginal and Torres Strait Islanders under 50) who need assistance with activities and who are not eligible for the NDIS, or have not yet tested their eligibility for NDIS.

mecwacare is the largest provider of government-funded home care services in Victoria. We have a diverse workforce that provides culturally appropriate services. Our workforce is made up of staff from 89 countries who speak 100 languages to match the needs of our clients.

All mecwacare nurses and direct care workers are qualified, trained professionals who hold a current Police Record Check.
