Warren Davies is also known as the
'Unbreakable Farmer.'

As one of Australia's leading rural mental health speakers and advocates, his keynote topics include resilience, persistence, determination, leadership and wellbeing – all while remaining morally relevant to all ages and communities.

Warren engages with individuals and organisations through the story of piecing his life back together and the lessons he has learnt along the way.

Warren's message is simple, and so very important – particularly at a time when constant stress is 'normal' and depression is more common.

You must hear Warren's story...
